

TRIMFIX

Over the past 30 years Trimfix has gained a high acceptance rating in the upholstery trade. The reasons for these high usage rates can be explained through its many benefits, some of which are listed below:

Economical, quick and simple to use.

Gives clean edge to upholstery (no visible means of fixing).

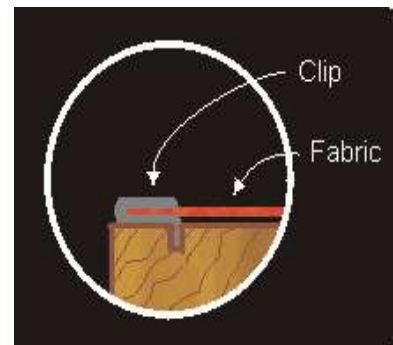

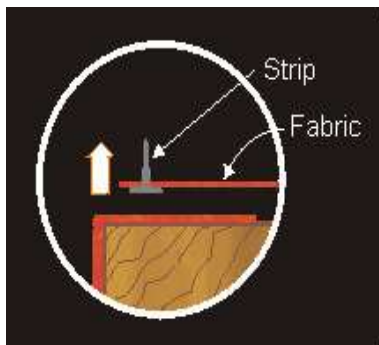

Available in standard lengths - 33inch, 27 inch, 24 inch, 21 inch, and made to order 39.36.30,18,15 and 12 inch.

Can be fixed to frame without tacks or staples.

Securing nail sections have fine ribs to provide extra grip in timber frames.

Packed in cartons of 250 lengths.

Produced from a strong high tempered construction grade galvanized steel to give a rigid nail section with lasting corrosion protection.
