

COVERFIX

Coverfix has been very popular in the upholstery trade for over 30 years. This is mainly due to its many benefits some of which are listed below:

Quick and simple to use.

Gives clean edge to upholstery (no visible means of fixing).

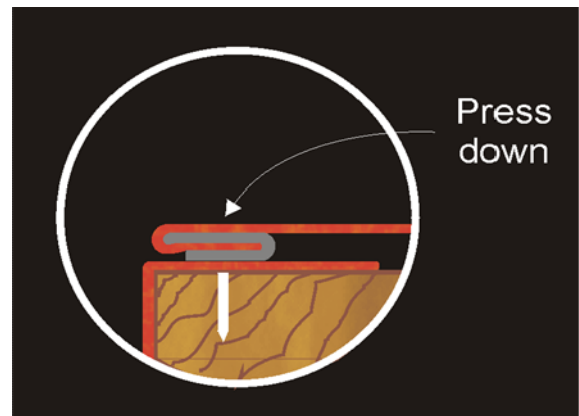

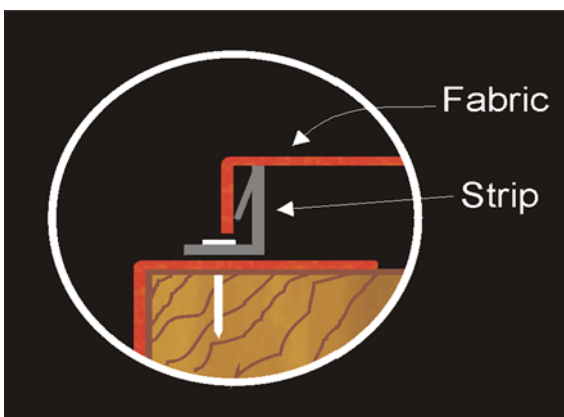

Zinc coated for corrosion resistance.

Can be fixed to frame by stapling, tacking or riveting.

Securing barbs lock down and hold all common upholstery fabrics.

Comes in convenient 30 metre coils which can be readily cut to length.

Produced from a malleable steel and designed with mitred gaps enabling difficult shapes and contours to be formed with ease.
